CONSULTANT REGISTRATION FOR CONSTRUCTION, ARCHITECTURAL, ENGINEERING AND OTHER PROFESSIONAL SERVICES

Want to give Public Works your expert advice as an architectural or engineering consultant?

The Los Angeles County Department of Public Works hires consultants, architects, engineers and other professionals to provide research, reports, studies, analysis, design and management of construction projects. These projects include construction, rehabilitation, refurbishment and maintenance of flood control facilities, streets and highways, sewer and water systems, bridges, water conservation facilities, airports, libraries, health care facilities, court houses, park and beach facilities, probation facilities, and fire stations.

By registering your company, Public Works will have a better understanding of your expertise. Additionally, the information will be used to select firms to invite to respond to request for proposals.

You can register as a consultant at <http://dpw.lacounty.gov/aed/crs/>.

If you are a consultant in a different type of business, register with the County of Los Angeles using the vendor registration link; <http://camisvr.co.la.ca.us/webven/>.

Please remember that all of our Invitation for Bids and Requests for Proposals are listed at <http://camisvr.co.la.ca.us/lacobids/>.

Thank you for your interest and cooperation.
