### HOW TO REDUCE HOUSEHOLD HAZARDOUS WASTE

#### Buy Smart

Purchase non-toxic or less hazardous products and only the amount you need. For alternative non-hazardous recipes visit: [http://dpw.lacounty.gov/epd/hhw/alternative.cfm](http://dpw.lacounty.gov/epd/hhw/alternative.cfm).

#### Store Properly

Toxic products are poisonous - don't put your family's health and safety at risk! Keep products out of reach of children and pets.

#### Use It Up

Finish all unused products and recycle the containers or donate what is leftover.

#### Protect Our Communities

NEVER throw HHW/E-Waste into your household garbage, toilets or sinks; never dump on the ground or pour down the storm drains - it is illegal - and HHW can seep into the groundwater, waterways and oceans, causing contamination of our drinking water, beach closures and health hazards to swimmers.

#### Dispose Properly

Dispose of HHW/E-Waste properly at a FREE Los Angeles County mobile event or a permanent center near you!

### PAINT RECYCLING MADE CONVENIENT...

California residents and businesses can now recycle leftover paint for FREE at local retail stores.
