**Description of Nature, Purpose, and Beneficiaries of Project:**

On April 8, 2025, the Board established and approved the acquisition of the new Computed Tomography (CT) equipment for the Los Angeles General (LA General) Medical Center Radiology Program. After Public Works completed design of the project through a Board-approved, on-call architectural/engineering agreement, and obtained plan check approval from the California Department of Health Care Access and Information, Public Works returned to the Board. On December 2, 2025, the Board of Supervisors approved the project budget and authorized the project to be delivered using Board-approved Job Order Contracts.

The LA General Radiology Department CT Equipment Replacement and Room Remodel project consists of remodeling the room that currently houses the existing CT scan and control rooms. The remodeled rooms will meet current accessibility and seismic code requirements. The new CT scan equipment has been procured by the Department of Health Services through the Internal Services Department, as the County's purchasing agent, and will be installed by the equipment vendor.

The project involves negligible, or no expansion of an existing use and replacement systems will have the same purpose and capacity as systems replaced. Beneficiaries are all patients visiting the hospital, especially those residing in the greater Los Angeles area.
